

Change Management & Digital Adoption for SAP

DATA SHEET

Enabling Learner Adoption and Sustainment with End-to-End Change Management & Digital Adoption for SAP ECC and SAP S/4HANA.

In the bustling world of corporate digital transformation, deploying a new SAP system can feel like navigating a ship through uncharted waters. Change Management and WalkMe play critical roles in ensuring this journey is smooth and successful.

Change Management acts as the strategic compass, guiding the organization through the complexities of the SAP deployment. It involves preparing employees for the shift, aligning the new system with business processes, and addressing any resistance to change. This process includes comprehensive training programs, communication plans, and support mechanisms designed to ease the transition and foster acceptance among users.

On-the-spot Assistance for Increased Efficiency

Enter WalkMe, the practical navigator on this journey. As a digital adoption platform, WalkMe provides in-context guidance within the SAP environment itself. It delivers step-by-step instructions, interactive tutorials, and real-time support right where users need it most. Imagine a virtual guide that helps employees understand and use new features without overwhelming them with extraneous information. This on-the-spot assistance minimizes errors, boosts productivity, and accelerates the adoption of the new system.

Together, Change Management and WalkMe create a synergy that ensures SAP deployments are not only strategically sound but also practically smooth. While Change Management lays the groundwork for a successful transition, WalkMe enhances the user experience by providing ongoing support and guidance, turning a potentially daunting process into a seamless journey toward digital transformation.

Key Benefits

- SAP implementation experience accelerates change management value-driven advantage
- Certified Change Management and WalkMe Practitioners
- Managed Services for Learning and Development
- Change Management method aligns with SAP Activate

What New Era Technology Offers

New Era Technology is an SAP Solutions Partner. Our change management solution; including digital adoption using WalkMe, is designed to facilitate a smooth transition by addressing the human, technological, and process related aspects of SAP enablement.
