

CloudBlu SIP

New Era Technology's CloudBlu SIP is flexible, scalable, and offers world-class support

New Era's Cloud Blu SIP platform allows your business to reduce telecommunication costs, consolidate billing, all while providing enterprise class voice quality across the globe.

Available in over 65 countries, Cloud Blu SIP can typically be turned up in hours, not weeks. New Era's CloudBlu SIP is also compliant with Ray-Baum's Act, Phase I and II, regardless of phone system.

Have a legacy system that only supports PRIs? New Era's Cloud Blu platform can easily be converted from SIP to PRI allowing you to reap the costs savings of SIP.
